Los Angeles, CA 90036
Tel: (323) 965-7444 • Fax: (323) 965-7445
Email: jrdale@hedeve.com

Harley Ellis Devereaux has enjoyed a successful practice since 1908, earning a reputation for excellence in all facets of architecture, from planning and design to construction. Today, we are a firm of nearly 500 people in 5 offices, with expanded capabilities through our Partner Companies. Our Work is produced through expertise-based studios. Not only does this allow us to bring the most current understanding of design trends and practices to each project, it also gives us the opportunity to understand our clients' business from their point of view. We recognize the importance of building the next generation of school facilities to improve the learning environment for children. High-performing schools use the whole building to save energy, resources and money. Working together, we can create improved facilities that have shown to produce higher test scores, increased average daily attendance, and increased satisfaction and retention.

Henry Woo Architects, Inc.

USA Shade & Fabric Structures, Inc.

Michelle Botha
350 Kalmus Drive
Costa Mesa, CA 92626
Tel: (949) 235-4207 • Fax: (714) 427-6982
Email: mbotha@usa-shade.com

Shade Structures was the first fabric structure designer/manufacturer in California to have received Division of the State Architect (DSA) approval. We are the leader in providing California state schools with the highest quality and largest selection of DSA pre-approved fabric shade structures. Our products provide the ultimate in shade and weather protection while enhancing the aesthetic appeal of any school or educational facility.

Our structures come in many shapes and sizes, allowing us to provide functional solutions for many outdoor locations, including eating areas, playgrounds, walkways, multipurpose facilities, and much more. Shade Structures are permanent installations requiring very low maintenance while providing years of safe shade.

Shade Structures is a complete design/build company, and we utilize our own in-house engineering team to provide custom DSA solutions. We have been very successful in using other fabrics and custom shapes to meet more inspired designs, allowing a true functional, architectural structure to be created. Trust Shade Structures to provide the ultimate solutions for your DSA needs!

CALIFORNIA'S
COALITION
for ADEQUATE
SCHOOL HOUSINGSM

www.cashnet.org

Facility Resource Center

The Facility Resource Center is designed to provide C.A.S.H. membership with useful "how-to" materials which represent best practices in the planning, design, construction, occupancy and maintenance of schools in California.

If you haven't already been using the FRC, try it out. To get there, go to the quick links section on the C.A.S.H. home page at www.cashnet.org and click on the link for Facility Resource Center.

Be sure to visit the website immediately following the conference for copies of workshop handouts as well in the "News & Events" section under "Meetings, Workshops & Conferences"
