

# ABOUT CASH

- California's Coalition for Adequate School Housing (CASH) is the premier statewide organization which promotes, develops and supports state and local funding for K-12 construction and maintenance.
- CASH membership consists of over 1,500 school districts, county offices and private sector businesses, including architects, attorneys, consultants, construction managers, financial institutions, modular building manufacturers, contractors, developers and others in the school facilities industry.
- CASH is your voice in Sacramento to advocate for funding to build, modernize, and maintain K-12 public schools in California.
- Since 1982, CASH has sponsored or supported over \$52.68 billion in statewide school bonds to build and/or modernize thousands of schools.
- CASH has very close working relationships with the Office of Public School Construction (OPSC), Division of the State Architect (DSA) and the California Department of Education (CDE) - the primary state agency partners that are critical to your success in school facilities.
- CASH represents the voice of the school facilities community before the State Allocation Board (SAB) - the body that determines the allocation of school facilities funding and changes to the School Facilities Program (SFP) and other funding programs.
- CASH is also one of only 15 members on the SABs Implementation Committee which reviews and advises the SAB regarding SFP regulation development and implementation.

- CASH affords its members numerous networking and training opportunities through its monthly membership meetings in Sacramento, an annual conference in late February which includes quality educational sessions and a trade show also in Sacramento, a Fall Conference in Southern California in October, and educational workshops and webinars throughout the year.
- CASH helps to build future leaders through its School Facilities Leadership Academy - a year-long rigorous program that provides professional training in areas including modernization, new construction and maintenance of public schools.
- Another way CASH helps to build future leaders is through the CASH Maintenance Management Certification Program (CMMCP). CMMCP is an educational program designed to develop current and potential maintenance staff into leading experts in the maintenance arena. The CMMCP will provide an educational resource for those who would like to increase their expertise in the management of school maintenance and operations programs.
- CASH has several committees in which many members are involved. These committees help shape the future of the organization, whether it is assisting with crafting our annual conference or helping to shape legislation and regulation.

For more information, visit the CASH website at [www.cashnet.org](http://www.cashnet.org) or contact CASH staff at 916.448.8577.

COALITION FOR ADEQUATE SCHOOL HOUSING
