

# California Power Authority Public Leadership Solutions For Energy (PULSE)

## An Innovative Energy Loan Fund

In its mission to invest in reliable, clean energy for our state's future, the California Power Authority offers a new financing solution.

**PULSE** offers public agencies tax-exempt financing to manage energy needs and costs. This loan fund provides flexible terms to a range of energy efficiency and clean on-site power generation technologies. Participating agencies will have access to transactions larger than those offered by other State energy loan programs.

✓ **Financing available to all public agencies**

✓ **Facilitates cost and energy savings**

✓ **Flexibility and ease of implementation**

### Eligible Projects:

- Energy efficiency
- Advanced building metering and controls
- Thermal storage
- On-site renewable energy (solar PV, small scale wind, biogas and landfill gas recovery)
- On-site distributed generation (fuel cells, micro-turbines, combined heat & power)
- Incremental costs of exceeding Title 24 building energy standards in new construction and major renovations (for "green" or "sustainable" buildings)

### Loan amounts:

\$2 million or more, for project portfolios, unlimited loan size

### Repayment periods:

Up to the expected life of the project

### Estimated Availability:

Fall 2002

### Program Marketing Partners:

Technology providers, engineering firms, energy service companies
