Bill Stevens - Director, Grounds, Maintenance and Custodial
Cynthia Strain, Vocational Education

Administration

David W. Gordon, Superintendent
Constantine I. Baranoff, Assistant Superintendent, Facilities and Planning

**Funding Model Development - Middle School
Furniture & Equipment Standards
Elk Grove Unified School District**

Prepared By:

The Elk Grove Unified School District Facilities and Planning Department.

Prices And Costs Provided By:

The Purchasing Department and/or program specialists. Prices include tax, shipping and installation, where applicable.

Priority Evaluation:

The committee determined priorities with extensive input from the administrators involved. District representatives provided information for Technology, Serving Kitchen, Custodial and Grounds areas.

Priority 1 - Most Important
Priority 2 - Enhancement, Not Funded

Items shaded within the "Item Description" represent furniture and equipment that are typically included in a construction contract. If not included with the contract, a shifting of priorities may be necessary to purchase these items.

Assumptions And Parameters -Middle School

Elk Grove Unified School District

The **2000 Middle School Furniture & Equipment Standards** are based on the following assumptions and parameters:

1. The furniture and equipment (F&E) purchases will comprehensively address the opening of all new, planned middle schools.
2. Funding is based on a count of 41 classrooms. Funding will be adjusted to reflect the actual number of classrooms built initially at any given middle school.
3. Funding priorities range from Priority 1 (Most Important) to Priority 2 (Enhancement, Not Funded). Every attempt will be made to fund all of Priority 1 category needs at the opening of the school with state building funds, developer fees, and Measure A Funds. Priority 2 needs are listed to allow for acquisition through grants, gifts, state and/or federal funds, parent fundraisers, site funds, etc.
4. Future inflation adjustments provided by state building funds, developer fees, and Measure A monies may not keep pace with actual rates of inflation; therefore, the Purchasing Department is given license to provide compatible alternatives to keep within the approved budget.
5. **Serving Kitchen costs are currently funded by the Food Services Department. Should these funds be unavailable, shifting of priorities will be necessary. and will be deducted from the total allocation provided.**
6. Computer prices listed include a \$120.00 fee for purchasing an extended warranty.
7. All items contained in the **2000 Middle School Furniture & Equipment Standards** are defined as "furniture" and/or "equipment" according to the California Department of Education's Accounting Manual guidelines. Items that do not meet the criteria as defined in those guidelines are defined as "supply items" and therefore are not eligible for purchase with Furniture & Equipment monies.
8. Shaded areas listed in the "Item Description" section of the document represent items that are typically included in the construction contract. If not included in the contract, a shifting of priorities may be necessary to purchase these items.
9. This *2000 Middle School Furniture & Equipment Standards* will be utilized for the opening of the new Toby Johnson Middle School and new middle schools thereafter, and will also serve as a guideline for modernization projects funded with the state bonds.
10. Year-round monies will only be allocated for schools implementing a YRE calendar.
