Assembly Member O’Donnell has introduced AB 48 which places a $13 billion statewide school bond on the 2020 and 2022 ballots, and includes new programs and provisions for the School Facility Program (SFP). This bill also includes a future bond in 2022.

Affordable housing proposals are being discussed in the legislature that could have significant implications for schools. New state requirements related to drinking water quality, storm water, indoor air quality, use of herbicides such as RoundUp, energy efficiency and wildfire smoke. The CASH Fall Conference 2019 will focus on providing the most recent information and these and other key issues for the school facilities and maintenance community.

This pre-conference workshop will focus on guidance and examples of how to effectively and efficiently navigate the state oversight process to fund and complete Modernization projects. In addition to presenting the most recent information, the agenda will also include case studies of different types of districts that have successfully completed modernization projects that can serve as examples for other school districts.

This workshop is an excellent supplement to the CASH Fall Conference. If you are thinking about doing a Modernization project for 2020, this is a workshop that you cannot afford to miss.

**Pre-Conference Workshop**

**Monday, October 14, 2019**

**Modernization Projects – New Challenges, New Solutions**

Executing successful school Modernization projects presents new challenges for school facility departments. Specifically, new state requirements relating to school safety, sustainability, energy efficiency, water quality, air quality, and existing state requirements such as compliance with the Americans with Disabilities Act (ADA), make a strategic approach to Modernization projects essential.

This pre-conference workshop will focus on guidance and examples of how to effectively and efficiently navigate the state oversight process to fund and complete Modernization projects. In addition to presenting the most recent information, the agenda will also include case studies of different types of districts that have successfully completed modernization projects that can serve as examples for other school districts.

This workshop is an excellent supplement to the CASH Fall Conference. If you are thinking about doing a Modernization project for 2020, this is a workshop that you cannot afford to miss.

**Fall Conference**

**Tuesday, October 15, 2019**

**New Funding and Programs for School Facilities and Challenges of New State Requirements**

Assembly Member O’Donnell has introduced AB 48 which places a $13 billion statewide school bond on the 2020 and 2022 ballots, and includes new programs and provisions for the School Facility Program (SFP). This bill also includes a future bond in 2022.

Affordable housing proposals are being discussed in the legislature that could have significant implications for schools. New state requirements related to drinking water quality, storm water, indoor air quality, use of herbicides such as RoundUp, energy efficiency and wildfire smoke. The CASH Fall Conference 2019 will focus on providing the most recent information and these and other key issues for the school facilities and maintenance community.

Specifically, the Conference will begin with an economic forecast from Mark Schniepp, of the California Economic Forecast, to set the stage, and will continue with an in-depth update and analysis of Proposition 51 bond sales, the status and specifics of AB 48, an overview of initiatives on the 2020 primary ballot, and an election analysis. There will be presentations on the most recent legislation, state regulations and state budget issues that have implications for school facility and maintenance departments, to include funding for full day kindergarten. The Conference will also include presentations on legal issues and litigation, bond market update, campaign and polling update, and a highlighting of the work of the CASH School Facilities Leadership Academy (SFLA). To allow Conference attendees to go deeper into key issues, this Conference will include Breakout Sessions on key hot topics.

As always, the CASH Conferences remain the premier venue to network with your school district colleagues, business partners and friends. Attend this year’s CASH Fall Conference and be informed about the most significant opportunities for the school facilities and maintenance community.
